PROFESSIONAL SUMMARY

Frontend Engineer with 3.5+ years of experience building scalable web applications with React.js, Next.js, and JavaScript. Currently leading a 4-member frontend team for an enterprise HRMS platform; previously built an AI-powered Applicant Tracking System. Strong in frontend architecture, reusable components, RBAC, and performance optimization, with working knowledge of Node.js and MongoDB.

EDUCATION

B.E. Computer Science and Engineering 2019 – 2023

Kongu Engineering College CGPA: 8.75/10

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3
Frontend	React.js, Next.js, Redux Toolkit, Vite, Material UI, Bootstrap
Backend & DB	Node.js, Express.js, REST APIs, JWT Authentication, MongoDB
Cloud & Tools	AWS, AWS Amplify, Netlify, Render, Git, GitHub, Postman, VS Code
Concepts	RBAC, SSR, Responsive Design, Performance Optimization, Reusable Components

EXPERIENCE

Frontend Developer Apr 2025 – Present

Transond Systems Pvt Ltd – Taqadom HRMS

- Lead a team of 4 frontend developers: own UI architecture, review code, and mentor on reusable-component practices.
- Developed enterprise HRMS modules in React.js using a reusable, scalable component architecture.
- Implemented Role-Based Access Control (RBAC) across the HRMS for module, feature, and user-action permissions.
- Built a centralized Currency Management module syncing currency values across Payroll, Reports, and Payslips.
- Developed customizable dashboards with drag-and-drop widgets and dynamic, personalized layouts.

Junior Software Engineer Apr 2023 – Mar 2025

Sense7AI

- Developed React.js frontend modules for Zita, an AI-powered Applicant Tracking System (ATS), focusing on reusable components and scalable UI development.
- Built Job Description Template and Candidate Weightage Matching modules, and a React.js dashboard for API usage analytics.
- Migrated the Zita website from Wix to React.js in two months, improving performance and maintainability.
- Migrated the InnovSpace website to Next.js with SSR and integrated Node.js mailing services.

PROJECTS

ProShop – MERN E-Commerce Platform *React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Stripe*

- Built a MERN e-commerce app with product, cart, checkout, order, and admin workflows, JWT auth, and RBAC.
- Integrated Stripe payments and Redux Toolkit state management; deployed on Netlify and Render.
