PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable web applications using React.js, Next.js, TypeScript, Node.js, and the MERN stack. Experienced in enterprise HRMS platforms, REST API development, authentication, Redux Toolkit, and performance optimization with a focus on clean, maintainable code.

EDUCATION

B.E. Computer Science and Engineering 2019 – 2023

Kongu Engineering College CGPA: 8.75/10

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3, Node.js
Frontend	React.js, Next.js, Redux Toolkit, Vite, Material UI, Bootstrap
Backend	Node.js, Express.js, REST APIs, JWT Authentication
Database	MongoDB (Basics)
Cloud	AWS (Basics), AWS Amplify
Tools	Git, GitHub, Postman, VS Code, Netlify, Render
Concepts	MERN Stack, RBAC, API Integration, Responsive Design, SSR, Performance Optimization

EXPERIENCE

Senior Frontend Developer Apr 2025 – Present

Transound Systems Pvt Ltd (Taqadom HRMS)

- Developed enterprise HRMS modules using React.js with reusable, scalable component architecture.
- Implemented Role-Based Access Control (RBAC) across HRMS modules for secure permission management.
- Built Currency Management module to synchronize financial values across Payroll, Reports and Payslips.
- Developed customizable dashboard supporting drag-and-drop widgets and dynamic layouts.
- Built advanced filtering, reporting and group-by functionalities to improve data accessibility.

Junior Software Engineer Apr 2023 – Mar 2025

Sense7AI

- Developed frontend modules for Zita AI-powered Applicant Tracking System using React.js.
- Built Job Description Template and Candidate Weightage Matching modules.
- Migrated Zita website from Wix to React.js, improving performance and scalability.
- Developed standalone React dashboard to visualize API usage and analytics.
- Migrated InnovSpace website to Next.js with Node.js backend integration for mailing services.

PROJECTS

ProShop - Full Stack MERN E-Commerce Platform

- Built a full-stack MERN e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT Authentication, RBAC, and Redux Toolkit for secure state management.
- Developed Product, Cart, Checkout, and Order Management with Stripe integration.
- Deployed the backend on Render and frontend on Netlify.
